Thanks for the call tonight. I understand that Our report MUST launch at 7:00 am CST and 4:00 pm CST That will happen regardless of content.

I will therefore expect a draft from my staff no later than 6:00 am CST and 3:00 pm CST.

I've asked Mary Peterson to recommend how to stream line and improve relevant content of the report...this revision will take a number of cycles but we get the message that a late report is no report, and that this report needs to summarize real accomplishments. We need to report on the value of our actions, not obscure activities

All - I need to move all of our internal deadlines up by 60 minutes . We can no longer be late. The ADm is relying on this information for cabinet meetings which have a FIRM sch that we are missing. This new sch starts tomorrow.

Thanks,
David
